

Portable Folding Gates

NO. 57P | 24' MAXIMUM WIDTH

FEATURES

Portable Folding Gates from Acorn Wire + Iron Works expand and lock to prevent access through any entry or passageway. Available in a range of widths and crafted of heavy-duty steel, gates feature casters for easy portability; when not in use gates are easily stacked and stowed.

Ideal for use in emergencies where traffic flow security is key. Gates can also be used to prevent access to sensitive equipment, funnel crowd traffic and secure unused areas.
